Mammoth Mountain, CA

2023 Spring Break/Second trip to sunny CA's Mammoth Mt! Located in the high elevation of the Sierra Nevada's and providing skiers with one of the longest ski seasons in the U.S. with an average 400 inches of snowfall and 300 days of sunshine. The mountain is great for all ski levels and includes expansive bowls, tree skiing, wide groomers & steep chutes.

Juniper Springs condos are the perfect basecamp for adventures at Mammoth offering a ski-in/ski-out location near the Eagle chairlift with access to the entire mountain

Mammoth has 3 separate base areas w/free shuttle bus service. The apres-ski scene on and off the mountain is very lively with live bands. Entertainment can be found in the Village and the adjacent town of Mammoth Lakes.
