## Jackson Hole Overview

Jackson Hole, Wyoming is a place unlike any other. Truly an American original, Jackson Hole is widely known for Jackson Hole Mountain Resort (JHMR), one of the top ski destinations in the country, if not the world. Media and skiers often rank JHMR as the #1 ski resort in North America. In addition to JHMR, the area has two other ski resorts; Grand Targhee and Snow King. The former is a 75-minute drive from downtown Jackson over Teton Pass. Snow King, also known as the "Town Hill," is in downtown Jackson. Nestled between the Teton and Gros Ventre mountain ranges, and bisected by the Snake River, Jackson Hole is located in far northwest Wyoming, right on the state's border with Idaho. Jackson Hole is a valley about 42 miles long and 8 miles wide; Jackson is the valley's most populous town. With an authentic, spirited, and distinctive Western mountain character, Jackson Hole is a popular destination for adventure-seekers in all seasons.

## MOUNTAIN CHARACTERISTICS:

- Terrain: 2,500 acres of in-bounds terrain on two mountains
- Vertical drop: 4,139 feet
- Base elevation: 6,311 feet/1924 meters
- Summit elevation: 10,450 feet/3185 meters
- Uphill capacity: 17,833 skiers per hour
- Backcountry terrain: open backcountry gate system accesses more than 3000+ acres

## RUNS:

- Quantity: 131 named trails on the map
- Difficulty: 50% expert, 40% intermediate and 10% beginner

**LIFTS:** • One 100-passenger Aerial Tram/• Two eight-passenger gondolas/• Five high-speed quad chairs/• Four fixed-grip quad chairlifts/• One double chairlift/•

**Snow:** averages 458" of snow each year. Additionally, we have 210 acres of snowmaking coverage.

**Temperature:** average winter temperature is 21 degrees Fahrenheit in the valley. Temperature inversions are common, which raise slope temperatures by 20-40 degrees as warm air rises and cold air settles on the valley floor.
